Letter of Appreciation

On November 27th 2013, the students of Grades VIII and IX of Kathmandu Valley Higher Secondary School participated in a documentary film “*From Fear to Freedom*” on Gender Violence in the United States Embassy. It was organized by Mr. Bev Hoffman, who works in Human Rights Film Focus, Nepal. The students enjoyed the film and participated in group discussion on gender violence and also took part in painting the “Wall of Hope” at the United States Embassy along with the Ambassador, His Excellency, Mr. Bode and later in and around the school premises.

We would like to thank Mr. Bev Hoffman and the United States Embassy for organizing this program and involving our students for this very current and useful topic on women abuse. The students seemed really enlightened and enthusiastic and want to go around and spread this awareness to nearby schools too.

We would really appreciate if our students are exposed to such ventures in future too.
